

CONTAINERS FOR WINE AND CHAMPAGNE

CONTAINERS FOR WINE AND CHAMPAGNE

Containers for wine and champagne:

- ✓ stacking option up to 6 containers upwards,
- ✓ galvanic coating protects the metal from corrosion, resistant to cool and humid conditions,
- ✓ optimal use of loading space and warehouse space,
- ✓ multi-purpose - for storage, for aging, for transport, for displaying in the basement or at trade fairs,
- ✓ extremely impact-resistant containers are bolted, which allows for quick replacement of damaged parts with new ones,
- ✓ adapted to modern machinery and robots used for loading and emptying containers,
- ✓ adapted to a small bottle of 0.375 L up to a standard 0.75 L bottle,
- ✓ quality confirmed by certificates, guaranteeing durability and safety.

WHY YOU SHOULD CHOOSE OUR WINE

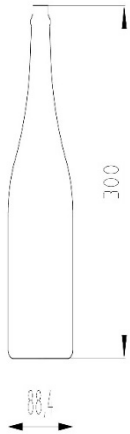

AND CHAMPAGNE CONTAINERS?

- 1. They guarantee safe transport.** Glass bottles with wine or champagne are properly protected during transport and warehousing. Metal mesh containers ensure high durability and strength compared to plastic containers or wooden crates.
- 2. They optimize a limited area of the vineyard.** What does it mean? Well, some of our containers can be stacked up to 6 containers upwards. In addition, they are adapted to modern loading and unloading machinery and robots. And if they're not used, they can be folded and stacked up to 17 levels upwards.
- 3. They improve the work of the vineyard and increase productivity.** Handling of containers is very simple. 30 seconds is enough to fold or unfold our container. This translates into saving of time of employees. The quality of workmanship prevents them from being damaged or soiled as in the case of wooden substitutes.
- 4. They increase transport efficiency.** Containers are made of the highest quality wire. Our mesh container is certified as safe for stacking and for its load capacity. You can transport a large number of bottles. Depending on the container, you can put to them up to 600 bottles, where the load capacity of container can be even 1000 kg.
- 5. They provide an ecological solution** - using our containers you do not have to use pallets, films, cardboard (disposable items). Our containers are for multiple use and are fully recyclable.
- 6. They minimize the costs of your company.** With proper use, these containers should work for our customers up to 15 years. The technology of their production makes they properly protect sensitive goods during transport, in the first place and secondly they are very resistant to damage.
